The war and its demands and effect upon telephone operations was the dominant keynote of the annual report of the Pacific Telephone and Telegraph Company for 1941, recently issued by N. E. Powley, president, who stated that "the expanding program and accelerated tempo of national defense throughout 1941 made for an unprecedented activity and a multitude of problems in every phase of our company's operations."

Copies of the annual report were being distributed here today to employees of the telephone company as an informative and valuable textbook on the company's operations, according to Orde V. Peitzke, manager of the Torrance exchange. In reporting his company's operations, President Powley emphasized that "every possible step has been taken to anticipate, and to provide for, the telephone requirements of the Army and Navy, as well as other branches of our government."
